

# Deliver a best-in-class eClosing experience, without leaving your LOS

## LOS INTEGRATION

### Encompass

Snapdocs integrates with Encompass, allowing lenders to execute digital closings in one centralized workflow for a more efficient and transparent experience for everyone.

Lenders can initiate the closing process, digitally send data and documents, monitor the progress of each transaction, and receive real-time status updates in one platform—all in a completely secure data connection.

Once the closing package is complete and error-free, Snapdocs automatically classifies and sorts all closing documents into their correct eFolders in Encompass.

It's simple to get started and Snapdocs offers a hand-in-hand partnership, from beginning-to-end.

### Integration Features

The Snapdocs + Encompass integration allows lenders to effectively manage all types of closings with the following functionality:

- ✓ Create closings
- ✓ Return signed documents
- ✓ Send data & documents
- ✓ Support for full redraws
- ✓ Receive real-time status updates

### Snapdocs eClose Benefits

Snapdocs digital mortgage closing platform powers a fast, convenient, and error-free transaction to deliver operational efficiencies and a better borrower experience:

-  Eliminate time-intensive, error-prone tasks with AI-powered document processing and quality control
-  Automate repetitive closing tasks, including redraws and reminders
-  Standardize the day-to-day for closers with one process for every closing, including wet, hybrid, hybrid with eNote, and RON
-  Open platform that connects to all participants in the closing process, including the largest and most engaged settlement network to ensure adoption
-  Allow borrowers to preview documents and eSign (including the promissory note) to reduce errors and speed up the process
-  Full transparency via native chat, commenting, status updates, and audit trails

Drive eClose adoption, open the door to efficiency, and uplevel your borrower experience—meet with the Snapdocs team today.

Jeff Henkel | VP Closing Fulfillment, Taylor Morrison

**“Snapdocs was the only vendor I could throw an entire Encompass document set. They’ll convert them, figure out which ones are wet and which ones are electronic. Then, electronically tag everything and do it very quickly.”**

Todd Burton | Director of Process Development, Allied Mortgage Group

**“The post-closing piece is much more efficient. The integration pushes the signed closing packets directly back into our Encompass eFolder within 10 to 15 minutes of the title company uploading it. Now, that’s a tremendous efficiency. We can literally have a loan closing at 9 AM and have a fully signed package back in our eFolder by noon.”**

Snapdocs is the mortgage industry’s leading digital closing provider. Powering millions of closings each year, Snapdocs combines an open platform, patented AI technology, the largest settlement network, and a team of industry experts to ensure digital closing success. Our proven approach enables market-leading lenders and title companies to automate the closing process and turn it into a competitive advantage. Using Snapdocs, lenders and title companies close more loans at lower cost while delivering the modern, referral-worthy digital experience borrowers expect.
