

Deliver a best-in-class eClosing experience for every borrower

POS INTEGRATION

LenderLogix's LiteSpeed POS

Snapdocs integrates with LenderLogix's LiteSpeed POS, allowing lenders to execute digital closings in one centralized workflow for a more efficient and transparent experience.

Now, borrowers can start and complete their mortgage transaction within one familiar platform. No additional logins or interfaces are required.

Lenders receive closing updates in real time through a secure stream of data, reducing the time and costs of these otherwise manual processes. And Snapdocs' open API ensures a secure stream of data from Snapdocs' eClosing platform into LenderLogix.

It's simple to get started and Snapdocs offers a hand-in-hand partnership, from beginning-to-end.

Integration Features

Snapdocs integrates with any POS, allowing lenders to effectively manage all types of closing with the benefits of:

- ✓ Streamlined borrower experience from application to close
- ✓ A connected technology stack
- ✓ Enhanced security (via SSO)
- ✓ Increased control of borrower authentication

Your eClosing Partner

-  Eliminate time-intensive, error-prone tasks with AI-powered document processing and quality control.
-  Automate repetitive closing tasks, including redraws and reminders
-  Standardize the day-to-day for closers with one process for every closing, including wet, hybrid, hybrid with eNote, and RON
-  Open platform that connects to all participants in the closing process, including the largest and most engaged settlement network to ensure adoption
-  Allow borrowers to preview documents and eSign (including the promissory note) to reduce errors and speed up the process
-  Full transparency via native chat, commenting, status updates, and audit trails

Drive eClose adoption, open the door to efficiency, and uplevel your borrower experience – meet with the Snapdocs team today.
