Learn about the platform that supports 1 in 4 U.S. mortgage transactions

CD BALANCING

The faster, more accurate way to balance Closing Disclosures

Automatically compare CDs, surface fee differences, streamline secure lender and settlement communication, and push correct fee amounts to your system of record.

eclosing Efficient, error-free digital closings at scale

Standardize every loan and closing type—from hybrid to eNote to RON—with a single, streamlined process.

NOTARY CONNECT

Easily find and schedule high-quality notaries from the nation's largest notary network

Streamline the scheduling process with credential verification, notary assignment & communication, document sharing, notary payments, and more.

eVAULT

The secure way to store, maintain, and transfer digitized documents

Scale eNotes across your entire loan portfolio with the only eVault designed for lenders, by lenders. Maintain the security of every promissory note and ensure fast delivery to secondary market partners.

Quality Control

Eliminate errors and accelerate funding and post-close processes with Funding Quality Control (QC) and Post Close Quality Control (QC).

Funding QC

Instantly checks critical-to-fund documents for errors like missing pages, incorrect signatures & dates, notary stamps, and automatically notifies the right teams if an issue is found.

Post Close QC COMING SOON

Virtually eliminates manual indexing and post-close file review, ensuring the full executed package is complete and accurate according to your QC checklist.

TRAILING DOCUMENT MANAGEMENT Reduce workload and accelerate doc delivery for your in-house final docs team

Accelerates final document delivery by eliminating manual follow-ups with settlement, automating document pushback to the LOS, and uses proprietary AI models to confirm that all documents are accurate and have been received.

"The Snapdocs platform enables a more efficient closing process, provides better service to our valued customers, and positions us for future growth."

Kevin English, COO
