CD BALANCING

The faster, more accurate way to balance Closing Disclosures

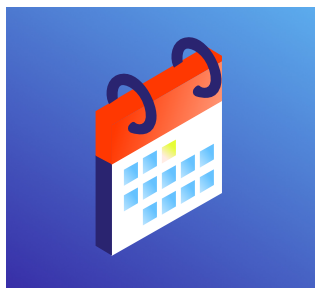

Automatically compare CDs, surface fee differences, streamline secure lender and settlement communication, and push correct fee amounts to your system of record.

eCLOSING

Efficient, error-free digital closings at scale

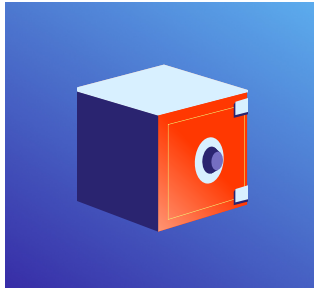

Standardize every loan and closing type—from hybrid to eNote to RON—with a single, streamlined process.

NOTARY CONNECT

Easily find and schedule high-quality notaries from the nation's largest notary network

Streamline the scheduling process with credential verification, notary assignment & communication, document sharing, notary payments, and more.

eVAULT

The secure way to store, maintain, and transfer digitized documents

Scale eNotes across your entire loan portfolio with the only eVault designed for lenders, by lenders. Maintain the security of every promissory note and ensure fast delivery to secondary market partners.

QUALITY CONTROL

Automate your file review process and deliver high-quality loans, faster

Eliminate errors and accelerate funding and post-close processes with Funding Quality Control (QC) and Post Close Quality Control (QC).

Funding QC

Instantly checks critical-to-fund documents for errors like missing pages, incorrect signatures & dates, notary stamps, and automatically notifies the right teams if an issue is found.

Post Close QC

Virtually eliminates manual indexing and post-close file review, ensuring the full executed package is complete and accurate according to your QC checklist.

TRAILING DOCUMENT MANAGEMENT

Accelerate delivery and reduce work for your final docs team

Accelerate delivery and reduce work for your final docs team. Easily track, manage, and receive final documents—all from within the Snapdocs platform. Improve your trailing docs process by ensuring document accuracy, eliminating settlement follow-ups, and automating pushback into your LOS.

“The Snapdocs platform enables a more efficient closing process, provides better service to our valued customers, and positions us for future growth.”

Kevin English, COO
