# Snapdocs Managed RON for Settlement Agents

## Access a new closing in Snapdocs via email

**Full eClosing**

**Good news! You have a new closing to complete**

Hi,

You've just received a full eClosing closing from The Lending Company, powered by Snapdocs. This means many of the closing documents will be eSigned by the consumer and the remaining documents will be signed with a remote online notary (RON) via webcam.

Follow the four easy steps below and you'll enjoy a 20-minute closing!

**Your four easy steps to a 20-minute closing**

Completing this checklist will ensure you meet The Lending Company's requirements for this closing.

- 1 Add your title documents**  
Begin by uploading your title documents. Your title package will be split into an eSign and Remote Online Notarization (RON) package. The eSign documents will be combined with the lender package and sent to the consumer to complete.
- 2 Set the appointment**  
The date, time, and remote online notary webcam appointment details will automatically be shared with the consumer.
- 3 Ensure eSigning is complete**  
Prior to the webcam appointment, remind the consumer to eSign their non-critical documents. The remaining critical documents will be signed with the notary over webcam.
- 4 Download signed documents**  
All signed documents will be available to you and your lender. Download these documents from Snapdocs so that the closing can be eRecorded.

Simple, right? Let's get started.

[Upload title documents & set appointment](#)

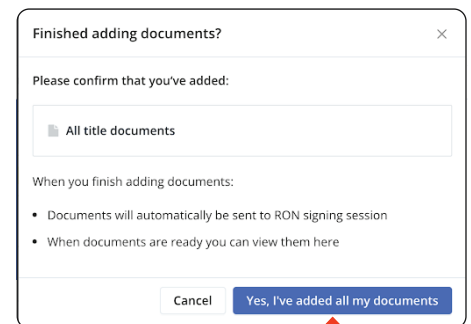

## Upload title documents under the "Prepare Closing Documents" section

1 Click "Choose files"

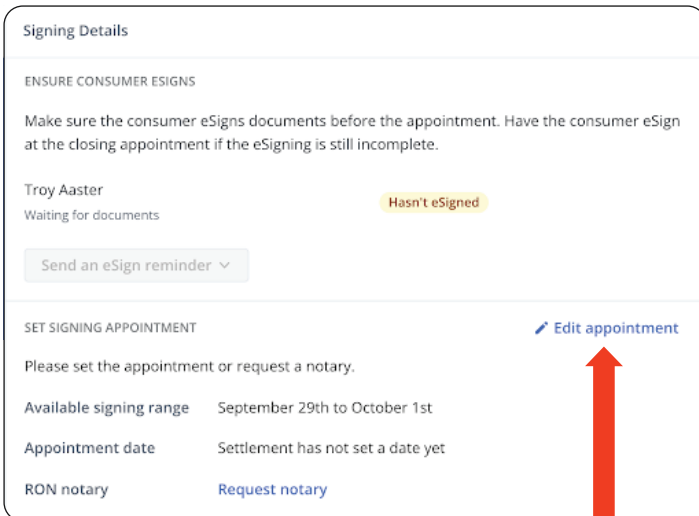

2 Upload and click "Finish Adding"

3 Confirm that you've added all the needed documents by clicking "Yes I've added all my documents"

## Schedule signing appointment

Must be at least 2 hours after title documents are uploaded to allow for processing. Please keep in mind the appointment time defaults to the timezone of the property address, NOT the signer's location.

Signing Details

ENSURE CONSUMER ESIGNS

Make sure the consumer eSigns documents before the appointment. Have the consumer eSign at the closing appointment if the eSigning is still incomplete.
